Course Description EU and Globalization is led by Professor Bruce Murray, Illinois in Vienna Program Resident Director. The course, taught in Vienna, Austria, explores internal and external factors feeding the current perception of crisis in the European Union. Instruction begins with an introduction to the peculiarities of EU governance. It continues with a focus on key issues that challenge EU policymakers today: persistent effects of the global financial crisis on the Euro zone, the struggle for common foreign and migration policy in the aftermath of the Arab Spring, and EU models of sustainable development in response to climate change. Study visits to several international organizations in Vienna include the United Nations Center, the Organization for Security and Cooperation in Europe, the Representation of the EU Commission and EU Parliament in Austria, the EU Fundamental Rights Agency, the EU Mission to the International Organizations in Vienna, the Austrian Environmental Agency. Tours of select cultural sites in Vienna and Salzburg complement instruction. Long weekends provide opportunities to travel, including an optional group excursion.
